

Average Solar Panel price per 10kW in Singapore

How much does a solar panel cost in Singapore?

A standard 10 kWp residential solar panel system, suitable for most landed properties in Singapore, usually costs between S\$15,000 to S\$20,000, with an average price of around S\$18,000. When it comes to battery storage, popular options like the Tesla Powerwall 2 are priced between S\$10,000 to S\$13,000 per unit, inclusive of installation.

How many kWh does a solar panel use in Singapore?

Approximately 2,700 kWh is used monthly by the typical Singaporean home. If you have 17 solar panels set to run nonstop, you can cover your weekly electricity costs with their output--an average of 0.26 to 2 kWh per hour. How much does Solar Panel Cost in Singapore?

How much does a solar panel cost?

This guide will break down everything you need to know about solar panel costs, from installation expenses to government incentives and long-term savings. Upfront costs: Expect to pay S\$15,000-S\$50,000 for a solar system, depending on size. Break-even point: Most homeowners recover their investment in 5 to 7 years through electricity savings.

How much electricity does a 10 kWp solar system generate in Singapore?

While Singapore's electricity tariff is approximately 28.12 cents per kWh (excluding GST), a 10 kWp solar panel system can generate about 1,200 kWh per month on average. Assuming you use 400 kWh of electricity per month, this translates to about \$224 worth of electricity stored per month (800 kWh \times S\$0.28).

Can solar panels save money in Singapore?

As energy prices fluctuate and concerns about sustainability grow, more Singaporean homeowners are turning to solar energy as a way to save money and reduce their carbon footprint. But one of the biggest questions remains: how much does it cost to install solar panels in Singapore in 2025?

How much does a 10 kWp solar system cost?

For a 10 kWp solar system, suitable for most landed properties, the total installation cost falls between S\$14,500 and S\$19,500. This typically requires 45 to 55 square metres of unshaded roof space, translating to about S\$290 to S\$430 per m².

Most home solar panel systems are approx. 10 kWp (S\$2,000/kWp), so cost varies from \$15,000 to \$38,000, depending on installation requirements & panel quality.

Get multiple binding solar quotes from solar installers in your area. How much do solar panels cost on average? As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000
