

# Average Solar Panel price per 8MW in Malaysia

How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost? Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

Are solar panels available in Malaysia?

Solar panels in Malaysia are not readily available to the public. Procuring the required equipment may be challenging and could lead to higher costs and logistical hurdles. Before initiating your solar panel installation, you must obtain the necessary permits from government bodies.

Can solar panels save money in Malaysia?

The Malaysian government, through programmes such as Net Energy Metering (NEM) scheme, allows solar panels owners to sell excess energy back to the grid, reducing electricity costs further. Additionally, tax incentives may be available for those who install solar panels, which can significantly reduce the overall cost.

Why are Malaysians installing solar panels?

Malaysians are also showing more interest in installing solar panels as a way to save on electricity. We explore how solar energy works and the costs of installing solar panels in Malaysia.

Are solar panels a viable alternative energy source in Malaysia?
