

Average residential ESS price per 50kWh in Zimbabwe

How much does electricity cost in Zimbabwe?

The price of electricity for households in Zimbabwe is ZWD 63.994 per kWh or USD 0.064 per kWh (September 2023). This includes all components of the electricity bill such as the cost of power, distribution, and taxes.

Where can I buy ZESA electricity?

Buy from your nearest ZESA office. This is your best bet if the system seems down on other portals. These are the latest ZERA-approved tariffs for the Zimbabwe Electricity Transmission and Distribution Company (ZETDC), the division of ZESA that provides electricity to homes and other final consumers.

Do you know about ZESA's electricity tariffs?

For Zimbabweans, both within the country and in the diaspora, staying informed about ZESA's electricity tariffs is essential for effective budgeting and planning. As the tariffs are subject to change based on economic conditions, it's crucial to keep abreast of the latest updates to avoid any surprises in your electricity bills.

Do prepaid meters & electricity tokens work in Zimbabwe?

In many parts of the world, including Zimbabwe, prepaid meters and buying electricity tokens have become a routine part of life. However, a common frustration that consumers often face is the uncertainty surrounding the exact units of electricity one will receive after purchasing your ZESA token.

What is the cost of electricity per kWh?

The cost of electricity in Zimbabwe, including all components of the electricity bill such as the cost of power, distribution, and taxes, is not specified in the provided passage. For comparison, the average price of electricity in the world for that period is USD 0.156 per kWh for households and USD 0.152 per kWh for businesses.

Does your residential location affect ZESA tariffs?

Unlike the most popular opinion, your residential location has no effect on the current ZESA tariffs. Whether you stay in the high-density, low, or medium-density, ZESA tariffs remain the same. The price per unit is affected by your usage and whether or not it's your first purchase of that particular month.

In total, 314,000 PV systems were registered in 2022. With the 15% attachment rate, that equates to 47,100 ESS installations. SunWiz's report mentions that the considerable growth in ESS installations coinciding with ...
