

Average solar with battery price per 100kW in Cyprus

How much does it cost to install solar panels in Cyprus?

The average price of installing solar panels has dramatically dropped over the last decade to almost 90%, allowing more people to afford such an investment. In Cyprus, it is estimated that it takes about 1.5 to 4 for the investment to pay off. The final price heavily depends on the specifications of your project and your needs.

Do solar panels produce electricity in Cyprus?

Solar panels absorb solar energy only on sunny days when most of the day sun shines. This means that they don't produce almost any electricity on cloudy and rainy days. Fortunately, Cyprus is blessed with over 300 sunny days a year, so this isn't something to worry about.

What is the price of electricity in Cyprus?

The price of electricity in Cyprus is 0.380 U.S. Dollar per kWh for households and 0.390 U.S. Dollar for businesses (as of September 2022), which includes all components of the electricity bill such as the cost of power, distribution, and taxes.

How much energy does a PV system produce in Cyprus?

The energy produced in Cyprus from 1 kW PV system is estimated at 1650 kWh per year. From PV projects we have already installed in Cyprus we have seen that, in many cases, the energy produced is much higher. Examples of energy savings from 3, 4 and 5 kW PV systems for their first year of operation can be found in the table below.

Where can I find solar energy in Cyprus?

The solar energy and installation companies can be found in all of the major cities throughout the island, including Nicosia (the capital), Limassol, Larnaca, Famagusta and Paphos. In 2011, the Cypriot target of solar power including both photovoltaics and concentrated solar power was a combined 7% of electricity by 2020.

Can a non-residential solar system be installed in Cyprus?

Residents of Cyprus who haven't installed any other PV systems with any other Government Grant Scheme are entitled to apply for a non-residential solar panel project, and the panels can be installed either on the roof of the applicant's premises or on the ground. The contract between the producer and the EAC lasts 10 years.
