

What are the investment needs in Nepal?

In this context, the study provides an in-depth description of investment needs in Nepal, available resources of funds and financing strategies for infrastructural development while highlighting a wide array of infrastructure sectors in Nepal ranging from transport, energy, telecommunication, and power.

Are the SDGs integrated into Nepal's national plans?

The SDGs have been integrated into Nepal's national plans, including the 15th National Development Plan and the national SDG Status and Roadmap (2016-2030) document. However, as with many other countries, there exists a wide institutional disconnect between the planning process and budgeting and financing processes for development.

Does Nepal have a regulatory framework for infrastructure investment?

Overview of regulatory environment Nepal doesn't have a standalone national policy, legal or regulatory framework for infrastructure investment. So far, the focus of the private sector and the government has been in the hydro-power sector.

Are infrastructure gaps a challenge for Nepal's long-term development goals?

This publication has been issued without formal editing. Infrastructure gaps present a significant challenge for Nepal's short and longer-term development goals. To provide a comprehensive picture of the required investments, the study reviews the period plans, development reports, and updated data from the Ministry of Finance.

Why does Nepal have an Investment Board?

The Government of Nepal under The Investment Board Act (Act 7) institutionalized an Investment Board to create "an investment friendly environment for mobilizing and managing Public-Private Partnership, co-operative and domestic and foreign private investment required for the development of infrastructure and other sectors" (Ahmed, et al., 2012).

Should infrastructure bank require minimum paid up capital of NRS 20 billion?

The statements also declared that infrastructure bank should require minimum paid up capital of NRS 20 billion and it can be entirely financed with domestic investment or jointly with foreign investors (Sigdel, 2016) (Nepal Rastra Bank, 2016). The policy also requires banks and financial institutions to increase the minimum paid up capital.
