

# Cheapest container energy storage installation offer in New Zealand

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

Where can I rely on a containerised energy storage solution?

Today, we are also a name you can rely on for safe battery storage. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over New Zealand and further afield (we have a footprint in 90+ countries).

Do you supply stand-alone shipping containers to the New Zealand market?

We also supply a wide range of stand-alone shipping containers, including all sizes and configurations, to the New Zealand market. We saw a need in the New Zealand market for a strong, durable and secure structure which can be larger than a shipping container alone.

What is containerised battery storage?

A long-term solution: our containerised battery storage solutions are built to last for decades. Your system's precious lithium-ion core is housed in an incredibly tough shipping-grade container. Battery storage from solar panels, wind turbines or water sources can give you the independence you need.

Who are Titan battery energy storage systems?

Which is where TITAN's battery energy storage systems come in. TITAN are veterans of the shipping container market, and over the past 35 years have become a leading provider of secure, robust containers for shipping, storage, refrigeration and offshore use. Today, we are also a name you can rely on for safe battery storage.

Why should you hire a battery storage container?

Further evidence of our commitment to battery safety can be seen in our shipping containers for hire as battery storage centres. Suitable for tech and retail clients across New Zealand, our battery storage containers help secure lithium and other types of batteries--and can reduce the risk of fire in the event of an emergency.
