

Expected ROI of residential ESS project in Turkey 2026

How did house prices change in Turkey in 2021?

According to the Central Bank's House Price Index (HPI), house prices in Turkey grew by 32.39% year-over-year in April 2021 and 28.56% in Istanbul. Inflation reached 17.14% during the same period, while the Turkish Lira depreciated by 19.6% versus the US Dollar, with a 17.6% interest return on one-year deposits.

Why is Turkey a good place to invest in real estate?

Turkey is an attractive country because of its transportation facilities, tourism, entertainment opportunities, and convention tourism. Istanbul, where Europe and Asia meet, emerges as a haven for real estate investments and is a rising star full of real estate opportunities and stands out as a haven for high value-added and profitable real estate.

Why are house prices rising in Turkey?

Improper city planning and poor infrastructure due to rapid urbanization have created a demand for earthquake-resilient homes in Turkey. According to the Central Bank's House Price Index (HPI), house prices in Turkey grew by 32.39% year-over-year in April 2021 and 28.56% in Istanbul.

How did rising interest rates affect mortgage sales in Turkey?

Rising interest rates resulted in a smaller share of mortgaged sales in the overall total in the first half of 2021 compared to the same period in 2020. Turkey is an attractive country because of its transportation facilities, tourism, entertainment opportunities, and convention tourism.

Where are foreigners buying a house in Turkey?

According to official sources, the country's most populous city, Istanbul, has continued to be the top choice for foreign buyers. Residential property sales to foreigners in the city in September 2021 increased by 25% year-on-year to 2995, compared to 2370 in September 2020.
