

Floor standing battery supplier quotation in Turkey 2030

What should you consider when exploring the battery industry in Turkey?

When exploring the battery industry in Turkey, several key considerations are essential. The country has become a significant player in the global battery market, driven by the growing demand for electric vehicles (EVs) and renewable energy storage solutions.

Will Türkiye's battery and storage power plants be approved next year?

However, Usta noted that despite draft regulations, the legal framework for battery and storage power plants is still evolving. The first approvals are expected next year. Türkiye's battery imports remained steady at around \$1.1 billion, similar to last year.

How many battery production facilities are there in Turkey?

New facilities capable of producing up to 5 gigawatt-hours of cells and batteries will be established in Ankara, Istanbul, Izmir, and Kocaeli, Usta said, adding that agreements signed this year alone exceeded \$1 billion in investments. With these new additions, the total number of battery production facilities in Türkiye will reach 11.

Will Türkiye get a battery approval next year?

The first approvals are expected next year. Türkiye's battery imports remained steady at around \$1.1 billion, similar to last year. Usta forecasted that exports would rise from \$39 million to \$48 million by the end of the year.
