

# Government procurement price of BESS in Romania

Does Romania have a Bess system?

At this point,Romania's installed BESS capacity is negligible. The largest system now under construction is a 7 MW lithium-ion battery owned by Megalodan Storage in Ilfov county,near Bucharest. Presently,the only operational projects in the country are two BESS systems operated by Portugal's EDPR,with a total capacity of around 1.5 MWh.

How much does a Bess project cost?

With this reopened bidding,the ministry aims to see the two-hour duration battery energy storage system (BESS) facilities up and running by mid-2026. The budget for the BESS projects is EUR 79.6 million. The call includes funding for the purchase of equipment and its installation,as well as the construction of BESS assets.

When will Romania implement a Bess subsidy scheme?

All projects must be implemented by the end of 2025. The subsidy scheme will contribute to Romania's energy transition objectives by developing at least 240 MW/480 MWh. At this point,Romania's installed BESS capacity is negligible.

Does Romania have a grant program for battery energy storage systems?

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities - wind,solar,or hydro. Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR 150 million (\$158 million).

How much will Romania pay for a battery energy storage system?

Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of EUR 150 million (\$158 million). With the funding secured from the Modernization Fund,the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17,2025.

How will a Bess subsidy help Romania's energy transition objectives?

The subsidy scheme will contribute to Romania's energy transition objectives by developing at least 240 MW/480 MWh. At this point,Romania's installed BESS capacity is negligible. The largest system now under construction is a 7 MW lithium-ion battery owned by Megalodan Storage in Ilfov county,near Bucharest.
