

# Government procurement price of PV energy storage in Turkey

Does Turkey have a PV market?

Turkey has previously supported the development of large-scale PV projects through the YEKA PV tender scheme and the Unlicensed PV Power Plant Incentive Scheme under 1MW. However, the Turkish PV market is currently driven by self-consumption and net-metered rooftop PV systems.

How much does a large scale PV project cost in Turkey?

Through the procurement exercise, which is the fifth of the Yeka series, the Turkish authorities want to select 76 large scale PV projects with capacities ranging from 10 to 30 MW across three 23 cities. The ministry has set a ceiling price of TRY 0.40/kWh (\$0.045). Applications will be received on January 12.

How much does a solar project cost in Turkey?

The final prices for the 12 projects ranged from TRY 0.49 (\$0.029)/kWh to TRY 0.597/kWh. For the YEKA 4 procurement exercise, the ministry had set a ceiling price of TRY 0.40/kWh. In the first tranche of the solar tender, the Turkish authorities selected three 100 MW projects.

Will Turkish solar projects get 15-year power purchase guarantees?

The Turkish authorities will provide winning projects in the nation's latest solar tender with 15-year power purchase guarantees. Domestic content requirements for equipment have played an important role in the procurement exercise.

Will EMRA set a size limit for PV systems in Turkey?

Eren, board member of the Turkish Photovoltaic Association Engur said that the Turkish Energy Authority (EMRA) hopes to allocate about 20GW of PV systems by 2030 through the scheme, while the Turkish government has not yet revealed whether it will set a size limit on PV systems eligible for the incentive scheme.

Is yeka-5 a sustainable gigawatt PV market in Turkey?

"With this new announcement of YEKA-5 we can easily say that we're on the right track of having a sustainable gigawatt PV market in Turkey with the support of the government," Eren Engur, a board member of Turkish solar association, G&#252;nder, and president of its energy storage committee, told pv magazine.

The Government of T&#252;rkiye, the World Bank, and Turkish development banks, signed today an agreement for a US\$1 billion program on "Accelerating the Market Transition for Distributed ...
