How do infra funds help wind and solar projects in Sweden?

Infra funds like GreenVoltis play a key role in providing structured financing to improve project bankability and long-term profitability. An increasing number of wind and solar developers in Sweden are expanding into BESS project development, but grid constraints remain a significant hurdle. Limited grid connection capacity is slowing deployment.

How is procurement regulated by public authorities?

Procurement by public authorities is regulated in the Public Procurement Act, the Utilities Procurement Act, the Act on Procurement of Concessions, and the Defence and Security Procurement Act. Several of the provisions in these acts implement the provisions of the procurement directives.

Can a grid company own an energy storage facility?

In its proposal, with regard to the holding of energy storage facilities, the government has proposed that a grid company shall not be allowed to own, develop, manage or operate an energy storage facility.
