How many public chargers will Slovakia have in 2026?

Slovakia's Recovery Fund has allocated 50 million euros to implement charging infrastructure. Therefore, the network of over 1,700 public chargers currently available should be expanded by at least 3,000 new units by the end of 2026.

Does Slovakia have subsidies for EVs?

However, since the program ended in 2020, Slovakia has not had any direct subsidies for the purchase of EVs, a fact that Krizanský considers "crucial."

Why has the Ministry of economy promoted batteries in structural projects & renewal plans?

THE PRIVATE SECTOR, GOVERNMENT, ACADEMIA AND ASSOCIATIONS
The Ministry of Economy has promoted batteries in structural projects and renewal plans because energy storage will be key to the achievement of 2030 and 2050 climate targets. In order to support investment in batteries, first the right legislation must be in place, then the funding,

Which companies are investing in EVs in 2026?

One of the most significant announced investments is Volvo's plant in the east of the country, which will exclusively produce EVs upon its launch in 2026. Furthermore, other Original Equipment Manufacturers (OEMs) are already investing in new models.

What does the e-mobility action plan say about EV subsidies?

In addition to subsidies for electric cars, the E-Mobility Action Plan also foresees other tools that would stipulate, particularly corporate e-fleets. "SEVA has proposed reallocating unused resources from the European Union's Recovery and Resilience Fund to the pot allocated for EV support to implement the subsidies quickly," indicates Krizanský.

With EUR500 million in planned investments and tax incentives sweeter than Slovakian honey cake, the government's push for battery storage and hydrogen solutions is creating a gold rush for ...
