Why is NSW opening a new energy storage tender?

NSW has opened the largest energy storage tender in NSW history, seeking new long-duration storage projects to boost electricity reliability and keep the lights on in NSW. These projects will help ensure a steady and reliable supply of energy around the clock.

What types of energy storage are available in Australia?

purchase in Australia. lithium-ion technologies. installed indoors. This report is a comprehensive analysis of the Australian energy storage market, covering residential, commercial, large-scale, on-grid, off-grid and micro-grid energy storage.

How many new energy tenders are there?

The four new tenders were revealed late Wednesday in a briefing note sent to the industry by the federal department of climate change, energy, efficiency and water.

How competitive are storage tender rounds?

Storage tender rounds are expected to remain highly competitive, with battery capacity under development exceeding tender volumes. The first CIS auction, the South Australia-Victoria Tender for battery storage capacity, saw significant investor interest.

When will battery energy storage systems be available in Australia?

The construction of the grid was anticipated to begin in early 2022 and is expected to be in operation by 2023. Thus, upcoming projects in Australia are expected to boost the demand for battery energy storage systems (BESS) during the forecast period.

How many large-scale energy storage projects are there in Australia?

The report identifies 55 Australian large-scale energy storage projects which are either existing, planned or proposed. Excluding pumped hydro, these represent over 4 GWh of storage. 9 gigawatts (GW) of capacity have been completed, planned or are in the pipeline. Of those, 19 have been completed and another 36 have reached financial close.

The first tender resulted in a single 50MW eight hour battery to be built by German energy giant RWE, and the final applications for the second round of up to 600 MW are being assessed now, with a third tender to be also ...

In December 2022, energy ministers agreed to support the design of a Capacity Investment Scheme (CIS) in order to encourage investment in new dispatchable capacity into Australia's energy grid. In August 2023, the ...
