

# Hybrid renewable storage project financing options in Netherlands 2026

Does the EU have a target for energy storage assets?

While the EU Commission has not yet set specific targets for energy storage assets, as part of the electricity market reform plans they announced a list of recommendations on energy storage. These recommendations offer member states guidance on how best to exploit the potential of energy storage.

Will return deliver 3 GW of energy storage in Europe?

With a strong track record and a BESS portfolio of 7 GW in development across Europe, Return is focused on bringing this capacity online within the next seven years. The company is on track to deliver at least 3 GW of energy storage by 2030, shaping the future of large-scale energy storage in Europe.

Will a 200 MW storage facility connect to TenneT in 2026?

First 200 MWh storage facility to connect directly to TenneT in 2026. A 100 MW /200 MWh battery energy storage system in Waddinxveen, capable to power 50% of the city of The Hague, is set to go live mid 2026 and has a critical role in stabilizing the Dutch grid and accelerating the transition to renewable energy.

How can organisations in the Netherlands fully harness the potential of their renewable energy investments? Let's explore how energy storage is driving innovation and creating opportunities in the Dutch market.

The Estepa project will be a hybrid system composed of a photovoltaic solar plant with an installed capacity of 215 MW and an estimated generation of 600 GWh per year.

Scatec, a renewable energy solutions provider, has secured \$479.1 million of non-recourse project financing to develop the Obelisk hybrid solar and battery storage project ...

Did you know 43% of renewable energy developers abandoned energy storage projects in 2023 due to financing hurdles? The global energy transition requires 387 GW of new storage ...

Once completed, the Gecama Hybrid Project is expected to become the largest renewable energy complex of its kind in Spain and to play a key role in advancing storage ...

Dutch energy storage developer Lion Storage is ready to launch the construction of its 364-MW/1,457-MWh Mufasa battery energy storage system (BESS) in the Netherlands after securing all required financing for the project.

Antares is the second largest storage project in the Netherlands. Set to go live by mid 2026, the project will stabilize the Dutch grid, reduce congestion, and integrate renewables ensuring a more sustainable energy ...

Santiago, Chile, 22 May 2025 -- DNV, the independent energy expert and assurance provider, has played a key role in providing comprehensive advisory services to Atlas Renewable ...

Subject to the completion of final development milestones, the solar and storage components of the Hybrid Project are expected to reach commercial operation (COD) in the ...

Within this article we focus on grid-scale electricity storage and examine the development of the market in the Netherlands, how policy and regulation is supporting the ...

Dutch developer Lion Storage has successfully reached financial close for its Mufasa project, one of the largest battery energy storage systems (BESS) in Europe. The ...

Enlight expands its successful Gecama Wind Project, transforming it into the largest hybrid power complex of its kind in Spain The project combines wind, solar, and utility ...

The Estepa project will be a hybrid project consisting of a 215 MW solar project with an estimated generation of 600 GWh per year. The project also includes two battery ...

DNV has provided advisory services to Atlas Renewable Energy to secure US\$510 million in financing for the landmark Estepa hybrid solar and battery storage project in ...

Macquarie Capital acted as lead equity investor in the largest battery energy storage system in the Netherlands - a key dispatchable source of power supporting the energy transition amidst ...

Innovative financing models and public-private partnerships are paving the way for the large-scale deployment of energy storage technologies essential for integrating ...
