

Hybrid solar storage project financing options in Romania 2025

How much money will be invested in Romania's energy sector?

Today, the Minister of Energy, Sebastian Burduja, announced on Facebook that an additional EUR150 million will be invested in Romania's energy sector. "I am pleased to announce that the Ministry of Energy is launching a new call for projects financed through the Modernization Fund, aimed at investments in energy storage capacities (batteries).

Who can participate in a new energy storage project in Romania?

Eligible participants include Romanian economic operators- micro-enterprises, SMEs, large companies, newly established entities, and public institutions. The projects must focus on building new energy storage capacities in Romania," the minister stated.

How much energy does Romania have in 2025?

At the beginning of 2025, Romania boasts approximately 3,000 MW in wind energy and 1,500 MW in solar energy. An additional 2,424 MW in wind and solar projects is expected to be operational in 2025, attracting over EUR2 billion in investments. Romania's Energy Goals for 2030: Achieve over 32,000 MW in total capacity by 2030.

What is Solarplaza Summit Romania PV & Storage 2025?

As Romania continues to develop its renewable energy sector, the Solarplaza Summit Romania PV & Storage 2025 is the ideal platform for those looking to advance their business in this burgeoning market. Whether you are a developer, investor, or service provider, this event offers the insights, strategies, and connections necessary to succeed.

How much of Romania's solar energy production will be covered by CfD?

The CfD will cover approximately 70% of the estimated production from a 190 MW solar portfolio, with the remaining production being sold in the Romanian wholesale electricity market. The contracts were awarded in the first CfD auction in Romania funded by the EU Modernisation Fund.

Where are the energy projects located in Romania?

The projects are in Dolj and Olt counties in the southernmost part of Romania. Romania has attractive market fundamentals, a clear energy transition agenda, and established offtake routes through the CfD auctions, corporate PPAs and a mature electricity market.
