

Installing a microgrid system is a significant investment that requires careful planning and budgeting. Whether you're customizing solar panels for your roof space, exploring battery storage, or making a full-blown overhaul ...

Electrica S.A. Group has launched a tender to build a 35 MW battery energy storage system (BESS) with 70 MWh capacity in F&#226;nt&#226;nele, Mures County (central Romania). ...

The results of Italy's main grid capacity market auction for 2025, published by Terna, show that energy storage represented 51.1% of the 174 MW of new capacity assigned. Thermoelectric plants ...

A microgrid is a small-scale power grid that can operate independently of the main grid. It typically includes renewable energy sources, such as solar and wind power, as well as battery storage. What is a microgrid RFP? A microgrid RFP ...

Romania expects its overall energy storage to amount to at least 2.5 GW in operating power at the end of 2025, and to expand to as much as 5 GW a year later, local media reported, citing Minister of Energy Sebastian ...

The report discusses three trends in grid modernization actions taken in Q2 2025: (1) states mandating procurement of energy storage, (2) lawmakers implementing rules governing microgrid deployment, and (3) states ...

In 2024, Romania ranked among the most expensive energy markets in the European Union (EU), occupying third place in the spot markets ranking. At the same time, accelerated consumption of gas from storage and ...

A tender for solar microgrid system has opened for the development of a battery energy storage system (BESS) minigrid in Papua New Guinea. The project encompasses the construction of a hybrid pv system and ...

Recorded live at the Hub during Intersolar & Energy Storage North America 2025, these conversations spotlight cutting-edge solutions for grid resilience, energy storage, and distributed energy. Paul Walker of Progress ...

Romania has opened its second renewables auction under a contracts-for-difference (CfD) scheme, offering 3.47 GW of capacity, including 1.47 GW of solar. The auction sets a maximum strike price of ...

Search all local Tenders for Microgrid. Download Microgrid Tender Documents. In 2025 109 Microgrid tenders are published by various Tendering Authorities & Private companies. 109 live ...

The scale of the reduction suggests that in addition to the falling cost of batteries--BNEF's recent Lithium-ion Battery Price Survey found that battery pack prices fell 20% year-on-year to 2024, again the biggest drop ...

Download SeeNext's analysis of the renewable energy industry in Southeast Europe here. Romania's inaugural CfD tender in 2024 allocated 1,096 MW of onshore wind and 432 MW of solar power capacity. The winning ...

China Energy Engineering launches record 25 GWh storage tender as prices hit historic low China Energy Engineering Corporation's landmark procurement signals a shift toward market-driven energy storage, with bids ...

The objective of the scheme is to support investments in the development of battery energy storage systems which can be used to store renewable energy (solar, wind and hydro energy) and are capable of operating ...

Romania will hold its second contract for difference (CfD) tender by the end of the third quarter and will seek to award 1.47 GW of solar and 2 GW of wind power capacity.
