

PV energy storage tender price in Brazil 2026

Will Brazil hold a large-scale energy storage auction in 2025?

The Brazilian authorities say they plan to hold a large-scale energy storage auction in 2025, potentially creating a market for large-scale storage facilities in the country. From pv magazine Brazil

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Could a Bess auction boost renewables in Brazil?

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and wind.

Why does Brazil need to double its power capacity by 2031?

Silveira added that Brazil's energy demand is rising due to climate effects, indicating the need to double the country's thermal power capacity by 2031. He also requested a contingency plan to maintain system stability during the summer months
