

Kuwait has launched several ambitious solar power projects aimed at harnessing the potential of solar photovoltaic (PV) and concentrated solar power (CSP) technologies to meet its growing electricity demand.

As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints and rising market ...

Kuwait recently approved its draft budget for fiscal year 2025/2026, forecasting a larger deficit of KD 6.3 billion, or approximately 13 percent of GDP, compared to KD 5.6 billion ...

The Ministry of Public Works has unveiled a comprehensive plan comprising 66 new projects for the 2025-2026 fiscal year, encompassing all sectors of the ministry. This initiative reflects a strategic push to upgrade ...

Kuwait has officially launched the bidding process for a major solar energy project aimed at boosting its renewable power capacity. The Kuwait Authority for Partnership ...

The Kuwait Authority for Partnership Projects (KAPP), in collaboration with the Ministry of Electricity & Water & Renewable Energy of the State of Kuwait (MEWRE), ...

"The proposal and awarding of solar energy contracts represent the most effective path forward for the ministry to sustainably address the power shortfall," the sources stated.

The Kuwaiti Cabinet reviewed the 2025/2026 fiscal budget, projecting a KD 6.3 billion deficit. The session also marked the beginning of Kuwait's National and Liberation Day celebrations.

The Kuwait Authority for Partnership Projects and Kuwait's Ministry of Electricity, Water and Renewable Energy has issued a request for proposals from six prequalified bidders for a 1.1 GW solar ...

Primary factors shaping the market evolution include Kuwait's commitment to sustainable development goals (SDGs), expanding financing options for solar projects, and the ...

PV + ESS Linyang has established six core requirements for the integration and operation of new energy storage stations: "high safety, long lifespan, high efficiency, low degradation, ...

o Eng. Noura Sulaiman Al-Fassam praised the Ministry of Finance's efforts in preparing Kuwait's general budget for the fiscal year 2025/2026, considering the economic challenges and national needs that ...

Shagaya Concentrated Solar Power Project The Kuwait Institute for Scientific Research (KISR) has developed the innovative Shagaya Renewable Energy Project, which constitutes the first phase (Phase I) of an ambitious Master Plan ...

Kuwait plans sovereign borrowing of up to 9 billion dinars in fiscal year 2025-2026, leveraging strong credit ratings, low public debt levels, and access to local and ...

The National Renewable Energy Laboratory (NREL) publishes benchmark reports that disaggregate photovoltaic (PV) and energy storage (battery) system installation costs to inform ...

Rising climate awareness, the need for strong environmental regulations, and demand for infrastructure projects in Kuwait will likely support the development of the green finance market.
