

Tunisia's push for renewable energy reflects significant progress through ambitious solar and wind projects, yet challenges such as regulatory hurdles, financing gaps, and grid infrastructure limitations continue to impede ...

This landmark project will be the first large-scale privately financed grid-connected solar independent power producer in the country and will support the government of ...

PARIS - Bracewell AARPI advised the European Bank for Reconstruction and Development (EBRD) on the financing of the development and construction of two greenfield ...

Tunisia has advanced its renewable energy goals by awarding contracts for four solar projects totaling 500 MW as part of its 1.7 GW solar project tender. These projects -- including a 198 MW installation and three 100 MW ...

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing energy dependency, Tunisia is taking a ...

1,000 GWh per year These projects are expected to be operational in 2027, producing around 1,000 GWh per year, or about 5% of Tunisia's national electricity production. The solar power plants are expected ...

Of this, 244MW was wind power, 166 MW solar power, and 62 MW of hydroelectric power. These renewable sources comprise 8% of the national energy capacity, an aspect that Tunisia seeks to change. It has been ...

In this framework the Ministry of Industry and SMEs launched an international tender for solar PV projects in 2019 with a total capacity of 500MWac. Tunisia is committed to reaching 30% renewable energy by 2030 to reduce emissions, ...

Scatec ASA, a leading renewable energy provider, and Aeolus SAS, part of the Japanese conglomerate Toyota Tsusho Group, have signed a partnership agreement to jointly develop ...

French firms Qair, Voltalia, and Norway's Scatec will develop 100 MWac plants in solar-rich Gafsa, Gabes, and Sidi Bouzid. Tunisia aims for 35% renewable energy by 2030, addressing rising energy dependence and ...

Paris & Tunis, March 24, 2025 - Qair, an independent renewable energy company, has signed power purchase agreements and concession contracts with the Tunisian government for the ...

The total project cost is approximately 79 million euros. The projects are financed through non-recourse project finance debt, including from the European Bank of Reconstruction and Development ("EBRD") and Soci&#233;t&#233; ...

The European Bank for Reconstruction and Development (EBRD) has recently approved financing for a 10-megawatt solar power plant in Romust, Tunisia. The loan, totaling ...

Oslo, 5 August 2024: Scatec ASA, a leading renewable energy provider, and Aeolus SA, part of the Japanese conglomerate Toyota Tsusho Group, have signed a partnership agreement to jointly develop and own renewable energy ...

The Government of Tunisia (GoT) has embarked on an ambitious path to increase its renewable energy production. Through the TERI UMBRELLA, the World Bank has been providing technical assistance activities ...

Tunisia has set an ambitious target of achieving 35% renewable energy in its electricity generation mix by 2030, marking a substantial departure from its historical reliance ...
