

The Philippines Department of Energy (DOE) has launched a tender that will facilitate the integration of more than 9 GW of new renewable power generation capacity, some of which to be paired with battery energy ...

The Philippines announces the launch of a major energy auction targeting more than 9 GW of new solar and wind capacities combined with storage solutions, offering 20-year contracts.

The Solar Energy Corporation of India Limited (SECI) has issued a tender inviting bids for the development of 2,000 MW of Inter-State Transmission System (ISTS)-connected ...

Specifically, carbon emissions decrease by 23.84% under a low carbon price scenario and by 50.91% under a high carbon price scenario, while the net present value ...

A 2 GW solar tender with co-located 1 GW/4 GWh battery storage was issued by Solar Energy Corporation of India to support India's 2030 grid reliability goals.

The latest standalone ESS tenders from Solar Energy Corporation of India and NTPC will augment capacity manifold and help develop the local ecosystem. Given that ESS technology is in its infancy in India, the ...

Polish utility PGE Group has launched a tender for the design and construction of a battery storage facility with a minimum capacity of at least 900 MWh. Meanwhile, Ukraine's ...

Two standalone battery energy storage system (ESS) tenders by the Solar Energy Corporation of India (SECI) and NTPC will augment the country's energy storage capacity by 1 gigawatt (GW)/4 gigawatt-hours (GWh) and create ...

Since 2023, the battleground of pricing has grown fiercer, with the cost of lithium carbonate plummeting, signaling an escalation in the price wars of ESS tender projects. Amidst industry fluctuations, pricing has emerged as ...

Somalia opens tender for hybrid solar project: A tender is open for the design, supply and installation of 10 MW of solar alongside 20 MWh of battery energy storage in northeastern ...

The ESS Price Forecasting Report provides a five-year forecast for the price of a DC battery container, including battery cells, modules, racking, and additional balance of system needed for a containerized battery system. ...

Registration for qualified suppliers opens one working day after the ERC publishes the Green Energy Auction Reserve (GEAR) Price. Suppliers must hold a renewable energy service contract or a Certificate of Authority ...

India's Ministry of Power has mandated all renewable energy implementing agencies and state utilities must incorporate a minimum of two-hour co-located energy storage ...

The country aims to achieve 500 GW of non-fossil-fuel-based capacity by 2030, requiring extensive deployment of energy storage systems (ESS) - particularly pumped storage projects (PSPs), battery energy storage ...

NHPC Limited is seeking to select Solar Power Generators for the establishment of 1200 MW grid-connected solar PV power projects with 600MW/1200MWh Energy Storage Systems (ESS) in India through a competitive bidding process. ...

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...
