

School solar storage project financing options in France 2025

How is France preparing for a solar project?

To meet these targets, France will rely heavily on structured tendering procedures. Beginning in the first half of 2025, the government plans to launch two annual tenders for ground-mounted solar projects, each awarding 1 GW of capacity. In parallel, three rooftop solar tenders per year are scheduled, with each round targeting approximately 300 MW.

Why should you attend Solar & Storage live Paris?

Explore the benefits of attending Solar & Storage Live Paris - taking place 5-6 November 2025. France is emerging as a European solar powerhouse, with capacity surging to 17.1 GW in 2022 and a goal of 100 GW by 2050.

How much solar power does France have in 2024?

In 2024 alone, the country added 4.6 GW of new solar capacity, bringing its cumulative total to 22.1 GW.¹ This growth shows no signs of slowing. According to SolarPower Europe, France's operational solar capacity could reach 52 GW by 2028, implying an additional 30 GW of installations over the next four years.²

Is France a European solar powerhouse?

by Catie Owen | Feb 11, 2025 | Market Reports | 0 comments France is emerging as a European solar powerhouse, with capacity surging to 17.1 GW in 2022 and a goal of 100 GW by 2050. This report explores the country's innovative policies, groundbreaking technologies like floating solar farms, and the key players propelling the industry forward.

How much money did the EIB & Bpifrance invest in solar projects?

Initial loan for Solar and Wind Projects In December 2024, the EIB and Bpifrance concluded an initial loan of EUR500 million to finance new solar and wind projects in France and Europe.

What challenges are facing France's solar landscape?

With ambitious targets set for 2030 and beyond, the country is ramping up ground-mounted and rooftop tenders, but faces critical headwinds in permitting, land availability, and price volatility. This article outlines key policy shifts, market segmentation, tender outcomes, and systemic challenges shaping the French solar landscape.

Also of interest to investors and developers of storage projects, IRENA has published the Electricity Storage Valuation Framework report, which outlines a method to assess storage value and establish favourable investment ...
