

# Solar Panel project financing options in Guernsey 2026

Should Guernsey have solar farms?

In response to calls for solar farms in Guernsey, Little Green highlights the potential of brownfield developments for sustainable energy while advocating rooftop solar as the island's primary path to net-zero. They emphasize the need for environmentally responsible solutions, like agrivoltaics, to balance energy generation with land use.

How many solar panels are installed in Guernsey?

Since 2013, we've installed over 3.1 megawatts of energy generation capacity, equating to over 7,000 solar panels, all of which contribute to the States of Guernsey's ambitious net zero 2050 targets. We partner with brands like Maxeon SunPower and SolarEdge, giving clients access to the most trusted names in the industry.

What is the energy strategy for Guernsey?

The Electricity Strategy for Guernsey covers the period up to 2050. The Committee for the Environment & Infrastructure considered several different ways in which Guernsey could meet its future demand including solar, wind, tidal, additional interconnectors, energy storage and alternative fuels.

How do I finance a solar panel?

One of the most popular options for solar panel financing is a loan. With a solar loan, you borrow money from a lender to pay for the installation of your solar panels. The loan is typically repaid over a period of several years, and interest rates and terms can vary depending on the lender.

Does Guernsey need a green economy?

It is essential that Guernsey can manage its own transition to a green economy effectively and so a strategic direction must be set, along with a market structure that supports this, and provide certainty to the energy industry. The Electricity Strategy was approved by the States of Deliberation in September 2023. What was proposed?

Do you need solar panel financing?

However, the cost of installation can be a barrier for many homeowners, which is where solar panel financing comes in. There are several types of financing options available, including solar loans, leases, and power purchase agreements.
