

# Standalone energy storage project financing options in Panama 2030

Can you finance a solar energy storage project?

Since the majority of solar projects currently under construction include a storage system, lenders in the project finance markets are willing to finance the construction and cashflows of an energy storage project. However, there are certain additional considerations in structuring a project finance transaction for an energy storage project.

How much MtCO<sub>2</sub> will be reduced in Panama?

The scheme expects to ensure the reduction of 17.5 MtCO<sub>2</sub>, representing 29% of Panama's total Nationally Determined Contribution within the Paris Agreement framework. Do you want to become an expert on renewable energies auctions?

Are solar and wind projects a good investment?

These projects will have long-term predictable revenue streams. In addition, lenders may be willing to finance merchant cashflows, but with less leverage and subject to detailed market studies and cash sweeps. These trends for solar and wind projects also apply to energy storage projects.

Why do energy storage projects need project financing?

The rapid growth in the energy storage market is similarly driving demand for project financing. The general principles of project finance that apply to the financing of solar and wind projects also apply to energy storage projects.

Will a tax credit be available for energy storage projects?

However, with the passage of the Inflation Reduction Act of 2022, tax credits are now available for standalone energy storage systems, and thus lenders may be willing to provide bridge capital that is underwritten based on the receipt of proceeds from an anticipated tax equity investment, similar to renewable energy projects.

How big will energy storage capacity be in 2022?

An estimated 387 gigawatts (GW) (or 1,143 gigawatt hours (GWh)) of new energy storage capacity is expected to be added globally from 2022 to 2030, which would result in the size of global energy storage capacity increasing by 15 times compared to the end of 2021.
