

Standalone energy storage supplier quotation in India 2025

How many energy storage tenders are there in 2025?

Standalone Energy Storage Systems (Standalone ESS) tenders reached 6.1 gigawatts (GW), which accounted for 64% of all utility-scale energy storage tenders in the first quarter of 2025, according to a report. "This capacity, issued across 11 tenders in just three months has already surpassed the total issuance in 2024.

How many GW of energy storage systems have been tendered?

According to a new report from JMK Research and the Institute for Energy Economics and Financial Analysis (IEEFA), tenders for standalone energy storage systems (ESS) comprised 64% (6.1GW) of the total capacity put out to competitive solicitation between January and March of this year.

How much does a battery energy storage system cost in India?

"In recent auctions, battery energy storage system tenders in Maharashtra and Rajasthan secured tariffs as low as ₹219,000-221,000 per megawatt (MW) a month (US\$2,561-US\$2,586/MW/month), representing almost a 40% reduction compared with non-VGF projects with similar specifications," Sharma said.

What percentage of energy storage capacity is ESS?

Standalone ESS accounted for 64% of the total utility-scale energy storage capacity tendered from January to March 2025. Image: IEEFA

What is standalone ESS?

As the country rapidly scales up variable renewable energy (VRE), Standalone ESS offers a dispatchable solution to address the intermittency of renewables, support grid stability, and optimise energy usage.

What is energy storage as a service?

Additionally, emerging business models such as Energy Storage as a Service (ESaaS) offer storage as a service rather than an owned asset, lowering the entry barrier for users through subscription-based or pay-per-use arrangements.

Beyond contracting delays, the sector faces structural hurdles related to supply chains, manufacturing and financing. India's installed BESS capacity remains limited, with most ...

Final verdict: Both standalone storage and solar-plus-storage can help you save on electricity bills with demand charges or TOU rates, but solar-plus-storage should save you more on TOU rates.

China is exploring new financial models to support the development of stationary energy storage powered by wind and solar energy (i.e., "wind and solar power + energy storage"), by ...

Standalone energy storage supplier quotation in India 2025

The Standalone Energy Storage Market in India is rapidly growing, with 6.1 GW of tenders issued in Q1 2025, accounting for 64% of total utility-scale energy storage activities. Despite ...

There were a record number of tenders issued for standalone energy storage systems, adding up to 6.1GW, a report by the Institute of Energy Economics and Financial Analysis (IEEFA) in April 2025 said.

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone Battery Energy Storage System (BESS) project, the largest of its kind in South Asia. ...

Sterling and Wilson Renewable Energy Ltd (SWREL) has won an EPC mandate for what could be India's biggest battery energy storage system (BESS) project. In a release, SWREL said that it has won the mandate for ...

1.3 In view of the above, MSEDCL hereby wishes to invite proposals for setting up of Pilot Projects of Standalone Battery Energy Storage Systems (BESS) connected with the State ...

In the first quarter of 2025, Standalone ESS tenders reached 6.1 gigawatts (GW), which accounted for 64% of all utility-scale energy storage tenders, which included all other use ...

IndiGrid, a power sector Infrastructure Investment Trust (InvIT), has announced the commissioning of India's first regulated utility-scale standalone Battery Energy Storage System (BESS) project with a capacity of ...

Executive Summary Energy Storage Systems (ESS) will be the next major technology in the power sector over the coming decade. The latest standalone ESS tenders from Solar Energy ...

Final verdict: Both standalone storage and solar-plus-storage can help you save on electricity bills with demand charges or TOU rates, but solar-plus-storage should save you ...

In the rapidly evolving energy landscape, Battery Energy Storage Systems (BESS) play a pivotal role in stabilizing grids, optimizing renewable energy, and ensuring energy reliability. A well-structured Bill of ...

The India energy storage market size reached 233.78 MWh in 2024. Looking forward, IMARC Group estimates the market to reach 6,637.31 MWh by 2033, exhibiting a CAGR of 41.70% ...

IndiGrid has announced the commissioning of India's first regulated utility-scale standalone Battery Energy Storage System (BESS) project with a capacity of 20 MW/ 40MWh.

In the first quarter of 2025, Standalone ESS tenders reached 6.1 gigawatts (GW), which accounted for 64% of all utility-scale energy storage tenders, which included all other use cases of ESS such as Standalone ESS, ...
