

Standalone energy storage tender price in Portugal 2026

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

How much does Portugal pay for energy storage projects?

With this in mind, the Portuguese Ministry of Energy announced on July 31 that it was awarding EUR99.75 million to a call for tenders for the installation of energy storage projects totalling 500 MW. Eligible projects can receive up to EUR30 million and be implemented at the transport and distribution level by the end of 2025.

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of EUR99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated EUR99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

Will Portugal produce 80% renewable electricity by 2026?

As part of its new energy strategy, Portugal aims to produce 80% renewable electricity by 2026 and 85% by 2030. The strategy includes a target of 20.4 GW of operational PV systems by 2030, comprising 14.9 GW of large-capacity plants and 5.5 GW of decentralized generation.

The tender for the design, manufacture, installation and 20-year operations & maintenance (O&M) of battery energy storage systems (BESS) for Power China's 2025-2026 ...

Detroit-based energy company DTE Energy (NYSE:DTE) is seeking to contract battery energy storage

Standalone energy storage tender price in Portugal 2026

capacity from roughly 450 MW of new standalone projects in Michigan.

Portugal plans a 750 MVA battery storage auction by January 2026, investing EUR400M to boost grid resilience, speed renewables, and strengthen energy security nationwide. ...

Indigrid, Kintech Synergy, and HG Infra Engineering have emerged winners in NTPC Vidyut Vyapar Nigam's auction for 500 MW/ 1000 MWh of standalone battery energy storage capacity with viability gap funding ...

The first of Spain's new renewable energy auctions is set to take place next week, as the country offers the possibility for bidders to include energy storage in their offers.

Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on ...

On 25 July 2024, the Bulgarian Ministry of Energy closed the open discussion on the terms and conditions for the upcoming battery energy storage system (BESS) tender, ...

Bulgaria's Ministry of Energy has awarded a total of 9,712.89 MWh under its 2024 standalone energy storage tender, representing 3 times the original target of 3,000 MWh. The tender was launched last year, aiming to ...

To this end, the country's Ministry of Energy announced on Wednesday that it has allocated EUR99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy ...

Bulgaria has launched the long-awaited tender for standalone energy storage systems in a bid to significantly increase the share of solar and wind in its electricity mix. The deadline for applications in November 21.

The initial results of the tender, which is part of the Recovery and Resilience Plan (PRR) and received 79 applications, indicated support for 43 projects. Spanish company ...

One of the two programmes will be directed towards pumped hydro energy storage. Image: MITECO. The government of Spain is launching EUR280 million (US\$310 million) in grants for standalone energy storage projects, ...

Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the ...

Standalone energy storage tender price in Portugal 2026

Portugal's second solar auction has closed with record-breaking low prices of EUR11.14/MWh (US\$13.12), or US\$0.0131/kWh, the country's government announced yesterday.

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...
