

# Successful bid price of BESS project in Bolivia 2026

How much does Bess cost in China?

It is nonetheless still eye-opening to note just how big those differences in cost are. The average for a turnkey system in China including 1-hour,2-hour and 4-hour duration BESS was just US\$101/kWh. In the US,the average was US\$236/kWh and in Europe US\$275/kWh,more than double China's average cost.

What is the capacity of EC's Bess project?

The total capacity to be acquired is 400MW/1,600MWh.In this regard,EC invites companies or consortiums that are experienced in implementing projects related to energy generation,and have the technical and financial capabilities to develop,finance,and operate energy storage systems to participate in the BESS project. RFQ Documents

Did BNEF win a Bess bid in China?

Downstream, as reported by Energy-Storage.news, recent tenders in China have been held in which winning bids for BESS projects as low as US\$66/kWh were entered, which Kikuma says were in broadly in line with BNEF's numbers.

How much does Bess cost?

BloombergNEF recently noted a global average price for BESS (without PCS or EMS) of US\$125 per kWh,for example. Kubik suggested the tender's requirements implied it covered an AC block solution. Energy-Storage.news looked at the move towards PCS-integrated AC blocks in a recent article (Premium access).

Is there any restriction on foreign participation in Bess project?

Submission of complete RFQ documents should not be later than 12 February 2025 at 5.00 pm. The mechanism for submitting RFQ documents will be announced via the EC website. Conclusion Based on the documents issued by EC to-date,it is unclear if there is any restriction on foreign participation in the BESS project.
