

Successful bid price of BESS project in Kuwait 2030

How much will the Bess market cost in 2030?

Looking ahead, it's expected the global BESS market will reach \$120-\$150 billion by 2030. The increasing level of investment in BESS has prompted competition between all major integrators seeking to capitalize on the opportunity to expand market share and capitalize on demand.

How much will Bess cost fall in 2022?

This broadly matches up with recent analysis by BloombergNEF which found that BESS costs have fallen 2% in the last six months, as well as anecdotal evidence of reductions after spikes in 2022. Compared to 2022, the national laboratory says the BESS costs will fall 47%, 32% and 16% by 2030 in its low, mid and high cost projections, respectively.

Will the project market rebound in Kuwait?

The project market in Kuwait is expected to rebound in the near future, as reports indicate that the Kuwaiti government has approved 35 projects worth up to \$51 billion to modernize its infrastructure and facilities. Projects worth approximately \$25 billion are expected to be completed by 2030.

How many projects has the Kuwaiti government approved?

KAMCO Invest reported that the Kuwaiti government has approved thirty five projects valued at approximately \$51 billion to modernize its infrastructure and facilities, as highlighted by Al Rai newspaper.

Will Bess projects have lower replacement costs in 2024?

With the reduction in costs, BESS project operators would be prudent to ensure the replacement costs of their assets are accurately valued for 2024 and declare updated values to their insurers. BESS projects operating for several years may have lower replacement costs in 2024 than they had earlier.

How does Bess procurement work in the UAE?

In the UAE, Emirates Water and Electricity Company (EWEC) issued in July 2024 a RfP for a 400 MW /400 MWh standalone BESS project. These offtakers conduct BESS procurement either through the EPC route, where they procure the BESS product, or via the IFP route, where they procure flexibility services.

The MENA region is starting to witness a drastic increase in large-scale battery energy storage systems ("BESS") projects, accompanying a soaring penetration of renewable energy.
