

Successful bid price of commercial energy storage project in Australia 2026

Which solar projects have won a tender round in 2024?

The tender round opened in May 2024 and sought 6GW of renewable energy generation. In New South Wales, developers Elgin Energy and Lightsource succeeded with their respective solar PV projects. Elgin Energy saw a bid for its 60MW Glanmire solar-plus-storage project, featuring a 104MWh BESS, accepted.

When will a project bid close in 2025?

Proponents are now able to register and begin preparing a project bid with registrations for Tender 6 to close 29 May 2025. Project bids close 10 June 2025. Codeville said projects will be subject to "a two-stage tender process that assesses a project's social licence commitments, deliverability, impact on the grid and quality of proponent.

Can projects bid for long-term energy service agreement (Ltesa) contracts?

AEMO Services, the part of the Australian Energy Market Operator tasked with running the competitive tenders for the NSW government, said projects can bid for long-term energy service agreement (LTESA) contracts under the new NSW Electricity Infrastructure Roadmap.

How competitive are storage tender rounds?

Storage tender rounds are expected to remain highly competitive, with battery capacity under development exceeding tender volumes. The first CIS auction, the South Australia-Victoria Tender for battery storage capacity, saw significant investor interest.

Where can I find information about big battery projects in Australia?

For more information about big battery projects see Renew Economy's Big Battery Storage Map of Australia. Giles Parkinson is founder and editor-in-chief of Renew Economy, and founder and editor of its EV-focused sister site The Driven. He is the co-host of the weekly Energy Insiders Podcast.

Which project fundamentals influence the competitiveness of a storage project?

Baringa considers three project fundamentals that influence the competitiveness of a storage project in the CIS: CAPEX efficiency: capital savings remains a key driver of cost-competitiveness.
