

Successful bid price of commercial energy storage project in Romania 2025

How much money will be invested in Romania's energy sector?

Today, the Minister of Energy, Sebastian Burduja, announced on Facebook that an additional EUR150 million will be invested in Romania's energy sector. "I am pleased to announce that the Ministry of Energy is launching a new call for projects financed through the Modernization Fund, aimed at investments in energy storage capacities (batteries).

How much money is needed for energy storage projects in Romania?

The projects must focus on building new energy storage capacities in Romania," the minister stated. According to the minister, as quoted by ZF.ro, the total budget for this state aid scheme is EUR150 million in non-reimbursable funds sourced from the Modernization Fund.

How much energy does Romania have in 2025?

At the beginning of 2025, Romania boasts approximately 3,000 MW in wind energy and 1,500 MW in solar energy. An additional 2,424 MW in wind and solar projects is expected to be operational in 2025, attracting over EUR2 billion in investments. Romania's Energy Goals for 2030: Achieve over 32,000 MW in total capacity by 2030.

How many MW is a Bess project in Romania?

This project will feature a 127 MW power rating and an energy storage capacity of 254 MWh, making it one of the largest BESS projects in Romania to date. However, R.Power has not disclosed when the project will become operational.

How much PNRR funding will Romania get?

As part of its green energy push, Romania recently announced that 18 solar and storage projects, totaling 2.5 GWh of capacity, would receive a share of EUR73.8 million in PNRR funding. R.Power's project is likely among these.

In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building ...

In the next few years, with the maturity of battery energy storage technology, the improvement of market mechanism and the continuous inflow of multinational capital, the Romanian energy storage market is expected to ...

What are the opportunities and challenges for business cases for stand-alone battery energy storage systems (BESS) in European markets like Germany, Italy, France, The Netherlands, Romania and Austria? Expert ...

Successful bid price of commercial energy storage project in Romania 2025

Search all the announced and upcoming GUSESS projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Romania with our comprehensive online database.

Lessons Learned from Emerging Economies The Supercharging Battery Storage Initiative would like to thank all authors and organizations for their submissions to support this publication. This ...

"Our target is to have at least 1000MW of battery storage in the next two years, exactly as much as we could have had today at Tarnita-Lapustesti, a project that we also took out of the drawer and for which we ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

Romania is on track for record solar deployment in 2025, driven by subsidies for residential and commercial and industrial systems and a more favorable framework for utility-scale development.

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via the National Recovery and Resilience Plan. A utility-scale solar-plus-storage site in northwest of the ...

Romania has emerged as a key player in Europe's renewable energy transition, with its power storage project bidding attracting global investors. The country aims to modernize its grid ...

Romania expects its overall energy storage to amount to at least 2.5 GW in operating power at the end of 2025, and to expand to as much as 5 GW a year later, local media reported, citing Minister of Energy Sebastian ...

Continued expansion of intermittent renewable energy, ESG-focused investments, the growing versatility of storage technologies to provide grid and customer services, and declining costs ...

Search all the announced and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Romania with our comprehensive ...

The funding, totaling RON 74.6 million, was granted by Romania's Ministry of Energy and was announced by R.Power on LinkedIn on January 3, 2025. This project will ...

Does Romania offer a subsidy for battery energy storage systems? From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the ...

In recent years, multinational capital investment in Romania's new energy sector has grown significantly, and is expected to lead 1.2-1.5GW of integrated landscape and storage projects in 2025, as well as promote the ...
