

Successful bid price of mobile ESS unit project in Finland 2026

How many Bess projects are planned in 2024?

For example, Finnish investment company Exilion achieved 40,700EUR/MW/month in the second half of 2023. In 2024, 113 MW BESS projects are expected to become operational, and 359 MW industrial-scale BESS projects have already been announced for the next five years (Elinkeinoelämä ja Keskusliitto, 2024).

How does Bess work in Finland?

BESS operators can also participate in cross-border markets to provide storage capacity for ancillary services, such as frequency regulation, which helps maintain grid stability and reliability. Ancillary services are currently the primary revenue source for BESS in Finland.

How will the Finnish government help to accelerate Bess investments?

Moreover, the Finnish government is improving policy support with tax exemptions for certain green investments, including battery storage, to meet the climate targets. These policies will help to accelerate BESS investments further by making them even more attractive financially.

However, the firm's chart implies the price will be relatively flat from 2026-2028. In a separate paper, "ESS Supply, Technology and Policy Report", CEA said that smaller lithium-ion battery OEMs and non-China ...
