

Successful bid price of residential ESS project in Turkey 2025

How much did new house prices increase in Turkey in January 2025?

In January 2025, new dwelling prices in Turkey surged by 33.9% compared to the same period last year, following annual increases of 33.9% in 2024, 91.3% in 2023, 140.8% in 2022, 70.5% in 2021, and 33.1% in 2020.

How will the demand for residential properties increase in Turkey?

Due to a growing population and increased interest from foreign investors, the demand for residential properties is expected to rise. Key urban areas like Istanbul, Ankara, and Antalya will likely experience the most growth, driven by continued investment in infrastructure and foreign interest.

What is the commercial property market like in Turkey?

The commercial property market in Turkey is also robust, with opportunities to invest in office buildings, shopping centers, and other commercial projects. The country's growing tourism industry presents additional investment prospects, particularly in hotels, resorts, and other tourism-related developments.

Why are construction costs increasing in Turkey?

Today, the reasons for the increase in the cost of construction are due to the increase in the prices of building materials and the increase in the prices of land due to the high demand for carrying out construction projects. Turkey is witnessing today a construction boom and a great demand from contracting companies to invest on its lands.

How to buy land for construction in Turkey?

You can search for the available lands for sale in different areas of Turkey through real estate agents or real estate websites online. If you want to buy land for construction, you must make sure that the land is suitable for construction and designated for urbanization, and not agricultural.

How has the residential property market changed in 2025?

The residential property market has grown significantly, particularly in cities popular with foreign investors, such as Istanbul and Antalya. As of 2025, house prices have continued upward trend due to increased demand from local and international buyers.
