

# Successful bid price of rooftop solar battery project in Saudi Arabia 2026

How much does a solar project cost in Saudi Arabia?

Saudi Arabia has shortlisted several bidders for the next round of competition for four solar projects, totalling 3.7 GW in capacity, with the lowest bid at USD 12.92 (EUR 11.91) per MWh. The Sakaka solar park in Saudi Arabia. Image source: Saudi Arabia's Ministry of Energy

What's going on with Saudi Arabia's solar project?

The partners have signed two 25-year power purchase agreements with Saudi Power Procurement Co. for the energy. A consortium of EDF Renewables and China's HHDC is set to develop, finance, build and operate 1.4 GW of solar capacity at two project sites in Saudi Arabia.

How many Riyals will Saudi power projects attract?

The projects will attract investments exceeding 8 billion Saudi riyals. Each will be developed on a build, own, and operate (BOO) basis by a project company, which will be 100% owned by the successful bidder. Furthermore, each project company will enter into a 25-year power purchase agreement with SPPC.

Who are the bidders for a 2gw/8gwh battery energy storage system?

Credit: Canva The Saudi Power Procurement Company (SPPC) has announced the 33 shortlisted bidders for its highly anticipated 2GW/8GWh battery energy storage system (BESS) tender. The tender, structured under a build-own-operate model, has garnered interest from prominent global players, including Masdar, ACWA Power, and Jinko Power.

EDF Renewables has signed a Power Purchase Agreement (PPA) with the Saudi Power Procurement Company (SPPC) during a recent official signing ceremony held in ...

In collaboration with: The Middle East and North Africa saw 2019 again confirm the growth and importance of commissioning large projects and launching additional phases of their renewable ...

4 ???&#0183; Saudi Arabia is establishing itself as a significant player in the energy storage sector, now ranked among the top ten global markets for battery energy storage. This recognition ...

Government support is a crucial driver for the rooftop solar market in Saudi Arabia. Initiatives such as the Saudi Vision 2030 and the National Renewable Energy Program (NREP) aim to ...

The Saudi Power Procurement Company (SPPC) has signed the Power Purchase Agreement (PPA) for 3 Solar IPPs as part of the fifth round of solar projects under the National Renewable Energy Program (NREP) which is ...

# Successful bid price of rooftop solar battery project in Saudi Arabia 2026

The economic and social development of the Kingdom of Saudi Arabia (KSA) has led to a rapid increase in the consumption of electricity, with the residential sector consuming approximately 50% of total electricity production. ...

1 ?&#0183; Saudi Electricity Company Secures Major Battery Energy Storage Projects Saudi Electricity Company has secured two major battery energy storage projects in northern Saudi ...

Abstract Saudi Arabia is developing utility-scale solar power projects as a first step toward diversifying its electricity generation mix, currently based almost entirely on crude oil, refined oil ...

Saudi Projects Expo 2026 will take place from May 2026, at the Riyadh International Convention and Exhibition Center. This event is one of the most significant exhibitions in Saudi Arabia's construction, infrastructure, and ...

Saudi scientists have determined the current price threshold for power purchase agreements (PPA) that could make large-scale PV and wind power projects viable in Saudi Arabia. They incorporated ...

Some 33 firms have been prequalified to bid for the 2,000MW first phase Register for MEED's 14-day trial access Principal buyer Saudi Power Procurement Company (SPPC) has prequalified firms that can participate in the tender for ...

This research contributes by providing a comprehensive economic and productivity analysis of grid-connected PV and hybrid PV/battery systems in an urban industrial ...

This paper explores the potential of rooftop solar PV to meet the electricity demand in the urban areas of Abha city, Saudi Arabia (KSA), minimising imports from the grid. A localised energy system for Abha is ...

A consortium of France's EDF Renewables and China's SPIC Huanghe Hydropower Development Co. (HHDC) has successfully bid for two solar projects in Saudi Arabia's fifth renewable energy...

The round five solar PV IPPs took the total capacity of publicly tendered renewable energy projects in Saudi Arabia to over 10,300MW. Solar PV IPPs account for 79%, or about 8,100MW, of the total capacity.

Image: Masdar. Chinese engineering firm Shanghai Electric and UAE state-owned renewable energy company Masdar have signed an agreement to build a 2GW solar project in Saudi Arabia.
