

Total investment cost of solar with battery project in Egypt

What is Scatec - Egypt's first hybrid solar & battery project?

This project marks a significant milestone as it represents the country's first hybrid solar and battery initiative. With an investment of approximately USD 590 million, Scatec aims to boost Egypt's renewable energy capacity, contributing to the nation's sustainability goals.

How much money did Egypt invest in solar power in 2024?

In 2024, Egypt embarked on a major renewable energy initiative by announcing the construction of two solar power stations with a total investment of 1 billion Egyptian pounds (\$20.60 million), funded by a European Union grant.

What is a hybrid energy project in Egypt?

It will be one of the first hybrid renewable energy projects in Egypt and is expected to serve as a pilot for uptake of the technology in the country. The project will support the green energy transition in Egypt while helping keep the grid stable and reliable in the face of growing electricity demand.

How can solar power and battery storage improve grid stability?

The combination of solar power generation and battery storage presents numerous advantages for energy management and reliability. By integrating these technologies, Scatec is set to enhance grid stability while addressing fluctuations associated with variable renewable resources like solar energy.

How does the EBRD invest in Egypt?

The EBRD's areas of investment in Egypt include the financial sector, agribusiness and manufacturing and services, as well as infrastructure projects in the power, municipal water and wastewater service sectors, and contributions to upgrading the transport sector.

What is the obelisk solar and battery storage project?

The project is set to unfold in two phases, with the first phase targeting completion by mid-2026. The Obelisk solar and battery storage project will be developed in two distinct phases. The initial phase encompasses the installation of a 561 MW solar plant alongside a BESS capable of storing 100 MW/200 MWh of electricity.

Cost: The total cost of investments for the solar plant and storage systems is estimated to be about \$800 million. Location: The main solar PV installation will be built in Benban, Aswan state, Egypt. The scale of the ...

African Development Bank, British International Investment and European Bank of Reconstruction and Development Support Pioneering Solar and Battery Storage Project in ...

Total investment cost of solar with battery project in Egypt

Scatec ASA has reached financial close for the "Obelisk" hybrid solar and battery storage project in Egypt. The 1.1 GW solar plus 100 MW/200 MWh battery energy ...

This project marks a significant milestone as it represents the country's first hybrid solar and battery initiative. With an investment of approximately USD 590 million, Scatec aims ...

Norway-based renewable energy company Scatec ASA has announced the financial close for its landmark Obelisk hybrid solar and battery storage project in Nagaa ...

Egypt has several renewable energy projects in operation. The Benban Solar Park in Aswan has a total installed capacity of 1.8 GW and is one of the largest solar parks in ...

Who We Are Solaire Egypt was officially established in 2020 after the partners, Ibrahim Hassaballa, Mohamed Ali and Amr Haridi met and realized they form a team with the perfect balance of expertise for renewable energy. The founders ...

(AfDB)-Egypt's first integrated solar and battery storage plant will deliver dispatchable clean energy, enhance grid stability, and manage peak demand. It is expected to ...

Egypt's first integrated solar and battery storage plant will deliver dispatchable clean energy, enhance grid stability, and manage peak demand. It is expected to generate ...

British International Investment (BII), the African Development Bank (AfDB), and the European Bank for Reconstruction and Development (EBRD) have jointly committed ...

The African Development Bank approved \$184.1 million for Egypt's Obelisk solar project. This project includes a 1-gigawatt solar PV facility and a 200MWh battery storage ...

Egypt's first integrated solar and battery storage plant developed by Scatec will deliver dispatchable clean energy, enhance grid stability and manage peak demand BII's ...

The European Bank for Reconstruction and Development (EBRD), African Development Bank (AfDB), and British International Investment (BII), the United Kingdom's development finance institution and impact ...

Norway's Scatec Asa has signed a 25-year power purchase agreement (PPA) with Egypt Aluminium for a 1.1 GW solar plant with 100 MW/200 MWh of battery energy storage. The agreement has been billed ...

A Strategic Vision: The Obelisk project is poised to become Egypt's first integrated solar photovoltaic and battery storage project of this magnitude, ushering in a new era for energy generation in the country.

Total investment cost of solar with battery project in Egypt

British International Investment (BII), the African Development Bank (AfDB) and the European Bank for Reconstruction and Development (EBRD) are providing a blended ...
