

Turnkey commercial energy storage EPC contract price in Ireland

What is an Energy Performance Contract (EPC)?

This scheme encourages businesses to invest in energy efficiency projects through Energy Performance Contracts (EPCs) for guaranteed results at a lower cost. An Energy Performance Contract (EPC) means a contractor upgrades your place of business to save energy and promises you savings. You pay them back with the savings over time.

What makes an EPC different to traditional contracting?

What makes an EPC different to traditional contracting is the focus on project outputs, such as carbon and energy savings, and not simply on supplying the technology. An EPC can be simply defined as the provision of energy services with a guaranteed outcome.

What is an EPC & how does it work?

An EPC can be simply defined as the provision of energy services with a guaranteed outcome. With an EPC, the ESCo takes full responsibility for the design and installation of a particular energy or carbon saving measure in return for a share of the potential cost savings.

What is a SEAI / Energy Performance Contract (EPC)?

SEAI are open to applications all year round. Energy efficiency / decarbonisation projects that set organisations on a trajectory to net zero. and support the energy contracting supply chain. Energy Performance Contracts (EPCs). Sample contract available [here](#)

Why should you choose Edina as your battery energy storage EPC contractor?

Why Edina as your Battery Energy Storage EPC Contractor? We are a BESS turnkey EPC contractor and systems integrator of advanced global Tier 1 battery and inverter technologies to provide an industry-leading battery energy storage solution that is scalable and delivers guaranteed performance.

What are energy performance guarantees (EPGs) & local energy supply contracts (lescs)?

Energy Performance Guarantees (EPGs) - Traditional contract with energy savings clause included (e.g. as Liquidated & Ascertained Damages) if agreed savings not delivered. Local Energy Supply Contracts (LESCs) - ESCo owns plant equipment and is paid by client for provision of energy (e.g. heat). Costs up to contract award only.

We deliver a broad portfolio of technologies, products, and services, with a strong emphasis on turnkey design and installation of photovoltaic systems, battery storage, and electric vehicle charging solutions throughout Ireland.
