

Turnkey utility scale ESS EPC contract price in Hungary

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.

What happens if the EPC contract is uncertain?

Any uncertainty in the EPC Contract may unfortunately see the Contractor liaising directly with these third parties and possibly risking the relationship of the Project Company with key influencers, customers and long-term neighbours.

What is an EPC contract?

An EPC Contract delivers these requirements in a single integrated package, which is one of the major reasons why EPC Contracts are the most common form of construction contract used in project-financed utility-scale solar projects. The key clauses in any construction contract are those that impact on time, cost and quality.

How many public procurement contracts did TSG offer in 2024?

The average number of offers per public procurement contract in 2024 was 3.2, which is slightly higher than the average of the last 5 years (3.1) which indicates a great opportunity for newcomers on the market. Tender-ertesito.hu, the local Hungarian branch of TSG has been operating since 2006.

Who is the appropriate party in an EPC contract?

At a fundamental level, it is imperative that the appropriate party corresponds with the relevant project stakeholders. The Project Company must ensure the EPC Contract states clearly that it is the appropriate party to correspond with any government agencies or authorities and the offtaker.

What is a performance specification in an EPC contract?

Performance specification: Unlike a traditional construction contract, an EPC Contract usually contains a performance specification. The performance specification details the performance criteria that the Contractor must meet. However, it does not dictate how they must be met. This is left to the Contractor to determine.
