

Warehouse solar storage project financing options in Philippines 2026

How many MW will a solar project deliver in 2026?

An advisory released Thursday said the updated target includes 9,553 MW from ground-mounted, roof-mounted, floating solar, and onshore wind projects for delivery between 2026 and 2029, plus 1,100 MW of solar capacity with battery energy storage. The previous plan had allocated 9,378 MW for solar and wind, and 1,100 MW for solar with storage.

How much solar capacity will Luzon have in 2026?

The previous plan had allocated 9,378 MW for solar and wind, and 1,100 MW for solar with storage. The DoE reallocated 1,040 MW of floating solar capacity in Luzon -- initially scheduled for 2026 -- across 2027, 2028 and 2029 to allow developers more preparation time, enhance feasibility, and support grid readiness.

Is the Philippines a good place to invest in solar energy?

The Philippines is one of the most promising solar markets in the world, and the government is committed to boost renewable energy sources.
