

How much does a kWh cost in the Philippines?

From an average of PhP5.58 per kilowatt-hour(kWh) in 2024,WESM prices decreased to PhP 4.14/kWh in the first half of 2025 -- a 26% decline -- marking the most affordable average market price since 2020. This price drop translates to more competitive electricity costs for Filipino consumers and businesses. "It begins with government.

Are there price caps in the WESM?

However,the determination of the price caps or price mitigation measures in the WESM is not captured within a robust frameworkto assess the important trade-off between end-user costs and the value of reliability. Primary price caps are applied to final settlement prices. Spot prices in the WESM,however,can
