Should you choose a hybrid solar system in Malaysia?

Save on utilities and improve your way of living with the right solar system in Malaysia. When businesses or households consider going solar, they either choose an off-grid or a grid-connected system. However, there's a third option - a hybrid solar system.

What is a hybrid solar system?

However, there's a third option - a hybrid solar system. This system combines the best of both worlds: the grid-connected system with extra peace of mind because of a battery backup. The grid-connected system brings on the ability to earn Feed-in-tariff credits and the battery backup enables you to have electricity even during a power blackout.

Who is solar battery storage system?

Solar Battery Storage System, We specialize in providing high-quality solar water heaters and solar panels solutions for both residential and commercial customers.
